

Scriptural Reasoning/ Spiritual Dialogue Circle

Scriptural Reasoning (SR) is a tool for inter-faith dialogue whereby people of different faiths come together to read and reflect on their scriptures. Unlike some forms of inter-faith engagement, it is not about seeking agreement but rather exploring the texts and their possible interpretations across faith boundaries, and learning to 'disagree better'. The result is often a deeper understanding of others' and one's own scriptures, as well as the development of strong bonds across faith communities. SR is now practised globally, including in places affected by religion-related tensions and conflict.
